INTRODUCTION

School Management Software is a complete, end-to-end Solution for your Institute (School, College, University, Academy, and Coaching Center).

School Management Software is an Online, Cloud-based, and Web-based System that enables you to manage your School efficiently. It is not only simplified and automates routine tasks, but also provides you with more control, visibility, and reporting with future trends & analytics. This school management system software will bring a lot of ease and will be a solution to countless problems faced by the management of the school.

School Management Software offers a strong backbone to the education system. It integrates information from various areas and brings them under one roof. This reduces the hassle involved in performing the task.

School Management System is the centralized system for the smooth functioning of educational institutions. It helps management, faculty, and students, equally to get informed on time. It enables mass communication between users regarding events, decisions, announcements, and daily activities.

This **school management system software** will bring a lot of ease and will be a solution to countless problems faced by the management of the school.

MULTI PLATFORMS

1. Web-Based:

With this feature, users can access the system or application through a web browser, without the need to download or install any software on their computer. This type of interface is convenient for users who need to access the system from different devices and locations.

2. Desktop-Based With Cloud:

In this feature, users can download and install a desktop application on their computer, but the application is also connected to the cloud, allowing users to access and synchronize their data across multiple devices. This type of interface is useful for users who prefer to work on a larger screen

3. Android Mobile App:

In this feature, users can access the system or application through a dedicated mobile application that can be downloaded and installed on their mobile device. This type of interface is useful for users who need to access the system on-the-go and prefer the convenience of a mobile device.

Dashboard

Our web-based school software is a comprehensive solution that provides educational institutions with an intuitive dashboard featuring analytical graphs. This feature allows schools to view their entire operations in a graphical format, including fees receivable, fee collection, student strength, student attendance, messages, and more. With this graphical representation, schools can quickly identify trends, analyze data, and make informed decisions.

ACADEMIC MODULE

The academic module in an ERP system is an essential tool for educational institutions to efficiently manage their student records and academic processes. With this feature, schools can capture students' pictures, create ID cards, and register students quickly and accurately. It includes an admission form and planner, student attendance and reporting, time table, syllabus setup, daily diary, and more. The module also features a student contact list that allows schools to send messages to parents regarding their children's academic progress, daily attendance, fee dues, birthday wishes, and other important updates. The system offers the flexibility of sending messages from masking and through their app, ensuring efficient communication with parents and guardians.

ID CARDS MODULE

The ID cards module is an important tool for educational institutions, as it allows for easy management and tracking of student and staff identification cards. **With this module, schools can capture student photos using a mobile camera, webcam, or any camera and eliminate the need to obtain photos from parents.** This not only reduces costs for the school and parents but also ensures that the photos are up-to-date each year.

Within a while

In addition, the module allows schools to embed their own designs and print the cards in-house, saving money on printing costs. There are various styles available for ID cards, and schools can choose the one that best fits their needs. The module also enables schools to print ID cards for staff members as well, making it a versatile and valuable tool for any educational institution.

111	ABIHA	MUHAMMAD USMAN			22-Jul-19 00:00	20...

Overall, the ID cards module provides an efficient and cost-effective way to manage identification cards for students and staff.

ATTENDANCE MODULE

An attendance module is a powerful tool that allows schools and educational institutions to track the attendance of their students. With this module, teachers and administrators can easily monitor the presence of students in their classes and ensure that they are attending regularly. In the event that a student is absent, the module can automatically send notifications and messages to their parents through the app. This feature helps to improve communication between the school and parents, ensuring that everyone is on the same page when it comes to student attendance.

The module also allows for easy reporting, making it simple to generate attendance reports for individual students or entire classes. Additionally, attendance can be taken using a variety of methods, including thumb machines and RF Id cards, providing flexibility and convenience for teachers and administrators. With the attendance module, schools can improve their reputation and provide peace of mind to parents, knowing that their child's attendance is being closely monitored.

EXAMINATION MODULE

The result module in an ERP system is an essential feature that allows schools to easily create system-generated results. With this module, schools can feed marks through the system or mobile app, reducing the time and effort required to input data manually. The module can generate results in marks, percentage, and grades, and can also create accumulative results for monthly tests. The module's reporting feature enables schools to view school-wise and subject-wise results, allowing them to make informed decisions. The system-generated results are visually appealing, with the option to add graphs, bar charts, and subject-wise grading, providing a comprehensive view of a student's academic performance.

The fee module in an ERP system is an essential tool for educational institutions to manage their fee collection process efficiently. With this feature, schools can generate fee slips that display the fee breakup and 12-month history, reducing the cost of printing fee cards. The system-generated barcode on the slip facilitates easy fee collection through the use of a barcode scanner, making the process faster and more accurate. The module also sends messages and notifications to parents when fees are received or when fees are due. The feature also includes a receivable, collected, and donor report that enables schools to make informed decisions. Overall, the fee module streamlines the fee collection process and provides comprehensive reporting capabilities.

ACCOUNTS MODULE

The accounts module in an ERP system is a crucial feature that allows organizations to manage their financials effectively. With this module, schools can easily view their fees collection reports and expenses, providing a comprehensive overview of their financial position. The module also includes a profit and loss statement, enabling schools to make informed decisions about their financial strategies. Overall, the accounts module provides valuable insights into the organization's financial health, enabling them to make informed decisions and streamline their financial processes.

PAYROLL

HR / PAYROLL MODULE

The HR and Payroll Management module in an ERP system is a vital tool for educational institutions to manage their workforce effectively. With this feature, schools can handle teachers' attendance, taking attendance through attendance machines and viewing reports about their progress. Additionally, this module enables schools to manage their employees' salaries and generate reports for various purposes, such as payroll reports and tax deductions. The H.R and Payroll Management module helps schools streamline their workforce management processes, ensuring that they have an efficient and productive workforce to deliver quality education.

INTRODUCTION

Mobile App makes it easy for parents to know Academic, Fee, Curriculum, Time-Table, Exams Schedule, Attendance, Feedback & Complaints related information of their children. It helps in providing up-to-date information.

A push notification is a message that pops up on mobile devices. Push notifications look like SMS text messages and mobile alerts, but they only reach users who have installed our app.

Benefits of using School Mobile:

School Mobile offers numerous benefits to students, teachers, and parents. By providing easy access to academic information, the app enables users to stay on top of their academic activities, ensuring they are always prepared for their classes. The app also simplifies communication between students, teachers, and parents, making it easier to share information and stay informed about important school events and activities.

Table of Content

- Payment History
- Attendance
- Notifications
- Result
- Complain
- Fee Balance
- Diary
- Time Table
- Paper Schedule
- Events/Programs
- E-Slip (Online Payment)

FEE COLLECTION

When a school collects fees from students, a notification is sent to parents through the school's mobile app informing them of the successful transaction. Additionally, parents are required to submit an e-slip of the fee collection receipt through the same mobile app. This system ensures transparency in fee collection and helps parents keep track of their child's education expenses easily.

FEE DUES

Schools can send fee-due notifications to parents via mobile app, helping parents plan and schools ensure timely payments for financial management. And parents can see also a fee balance

INFORM ALERTS

Schools can also send alerts to parents through their mobile app regarding upcoming events such as parent-teacher meetings, school trips, and holidays. These alerts can also include important announcements such as school closures due to inclement weather or any other emergency situations. By keeping parents informed, schools can ensure smooth communication and promote parent engagement.

DAILY DIARY

School mobile apps can provide a daily homework feature for assigning, tracking, and notifying parents of their child's homework assignments and due dates, improving academic management and parental involvement.

ATTENDANCE

Schools use mobile app notifications to inform parents of their child's attendance, enabling parents to take action and ensure regular attendance.

BIRTHDAY WISHES

A mobile app feature that allows schools to send birthday wishes and commemorate special days such as remembrance days can help foster a sense of community among students and their families. By using this feature, schools can acknowledge important events and milestones in students' lives and make them feel valued and appreciated. This can also help build positive relationships between schools, students, and their families.

RESULT

School mobile apps can send result notifications to parents, keeping them updated on their child's academic progress. Parents can also use the app feature to view their child's results in detail.

In conclusion, mobile apps have become an essential tool for schools and parents to communicate effectively and manage academic activities efficiently. With the help of features such as fee collection, attendance, homework assignments, and result notifications, schools can ensure timely communication and keep parents informed about their child's academic progress. This not only strengthens the relationship between schools, students, and parents but also helps students succeed by providing them with the necessary support and resources.

INTRODUCTION

In today's digital age, mobile apps have revolutionized the way we live and work. The same goes for education, where mobile apps have become an essential tool for teachers to manage their daily tasks efficiently. Our teacher's mobile app is a user-friendly platform that provides teachers with a comprehensive range of features to manage their classrooms with ease. With this app, teachers can easily access their student's fee dues and fee ledger, create timetables, schedule exams, and put marks on student results. They can also take attendance and send daily diaries to parents, making communication between teachers and parents seamless. Our teacher's mobile app is an indispensable tool for modern-day educators, enabling them to focus on teaching and student learning.

Table of Content

- Fee Ledger
- Fee dues
- Daily Diary
- Create Time Table
- Create Exam Schedule
- Take Attendance
- Feed Results Marks
- And Many More

FEE LEDGER & DUES

The fee ledger and fee dues options in our teacher's mobile app allow teachers to view their students' fee records easily. Teachers can access information about their students' payment history, outstanding dues, and payment schedules with just a few clicks.

This feature simplifies the payment tracking process for teachers, enabling them to keep track of their students' fees and ensure timely payments.

DAILY DIARY

The daily diary option in our teacher's mobile app enables teachers to communicate effectively with parents about their child's progress. With this feature, teachers can easily create and send daily diaries to parents, detailing their child's activities, assignments, and academic progress. This fosters a strong parent-teacher partnership and helps parents stay informed about their child's education. The daily diary option in our teacher's mobile app streamlines communication between teachers and parents, promoting a collaborative learning environment.

TIME TABLE

The Time Table option in our teacher's mobile app enables teachers to create and share class schedules with their students. This helps students plan and prepare for their classes, ensuring they bring the necessary books and copies for each subject.

The image shows a smartphone screen displaying a 'Time Table' for 'Monday'. The table lists 10 blocks of classes. Block 1 is Botany, Block 2 is Chemistry, Block 3 is Maths, and Block 4 is Civics. Blocks 5 through 10 are marked with a hyphen (-). Each row has a green plus sign (+) in the rightmost column. The screen also shows a red 'X' icon in the top right corner of the table area.

Day : Monday		
Block 1	Botony	+
Block 2	Chemistry	+
Block 3	Maths	+
Block 4	Civics	+
Block 5	-	+
Block 6	-	+
Block 7	-	+
Block 8	-	+
Block 9	-	+
Block 10	-	+

EXAM SCHEDULE

The paper schedule option in our teacher's mobile app enables teachers to create and share exam schedules with their students. This helps students prepare for their exams by providing them with a clear timeline of when each exam is scheduled to take place.

ATTENDANCE

The student attendance option in our teacher's mobile app eliminates the need for registers and expensive attendance machines. Teachers can easily take attendance using their mobile devices, simplifying the attendance tracking process.

RESULT MARKS

The result marks option in our teacher's mobile app enables teachers to enter and store student grades digitally. This eliminates the need for paper and heavy stationary costs, simplifying the grading process.

In conclusion, the teacher's mobile app has become an indispensable tool for modern-day educators. It provides teachers with a comprehensive range of features to manage their classrooms efficiently, enabling them to focus on teaching and student learning. With the ability to view fee ledgers and dues, create timetables, schedule exams, take attendance, and share daily diaries with parents, teachers can streamline their daily tasks and foster a strong parent-teacher partnership. The app also eliminates the need for costly and time-consuming paper-based processes, making it a cost-effective and environmentally friendly solution for educational institutions. Overall, the teacher's mobile app is a game-changer for education, improving communication, and simplifying administrative tasks for teachers and administrators alike.
